Endoscope Repair: Flexible, Rigid, Camera Heads, Power, Transducers • **Refurbished Endoscopy Equipment:** GI and Surgical
• **ERBE Surgical Systems:** Electrosurgery, Helix Hydro-Jet™ •

Maximize Your Budget with Refurbished Equipment

Are you looking for endoscopy equipment that costs less, but still performs like new? At Life Systems, our product mix allows you to stretch even the tightest of budgets with our refurbished equipment.

We have a vast inventory of endoscopy equipment and accessories in stock. Our focus is on providing customers with equipment of superior quality and performance at a 40-50% discount off of the new series of OEM equipment.

Some refurbishers make only cosmetic changes to used equipment and sell them as refurbished. Our experienced technicians subject each piece of equipment to a 50+ point quality check and replace key components with brand new precision parts.

Each item in inventory is refurbished as necessary to meet or exceed the manufacturer's specifications for the product. We use only new parts in our refurbishment process. Life Systems oversees the engineering design and manufacturing of our quality replacement parts for refurbished equipment. Our engineers design our replacement parts using the latest technologies including: video-laser metrology equipment and 3-D optical scanners to deliver precise measurement and optimal parts performance.

Not only will you enjoy quick delivery and unmatched support after you purchase, you will also receive a full, *One-Year Warranty* with each piece of equipment. Service contracts are also available to protect your investment into the future. The cost of the service contract is competitive with those based on new equipment purchases.

Call Life Systems to purchase refurbished equipment that's close to new ... *except for the price.*

Life Systems' refurbished inventory includes many models of both flexible and rigid endoscopes as well as accessories from leading manufacturers:

- Olympus®
- Pentax®
- Karl Storz®
- Stryker®
- Smith & Nephew - Dyonics®
- Richard Wolf
- Circon - ACMI Corporation
- ConMed™ Linvatec
- and many more

Endoscopy Equipment

Life Systems has many brands and models of new and refurbished equipment in inventory for both Gastrointestinal and O.R. / Surgical Endoscopy.

If you have a specific need, please contact us and we can provide a quote on our current offering. Should this item not be in our inventory, let us do the leg-work for you. We have many avenues for obtaining quality equipment for our valued customers.

Customers may also trade their under-utilized equipment towards the purchase of new or refurbished equipment from Life Systems. Your unused equipment may have a much greater value than a trade-in offer from the manufacturer. Please call for more details.
